Is there
anything stirring
about the Drill, and
Segunda and Aass

Dear Bro.

I wrote you some two months or so ago, but have received now answers either directly or indirectly, and I am greatly wondering what has become of you; and how everything is progressing. I cannot write you much this morning as I have not much time but I want to ask you to let me know at once without fail if that trunk of stuff I left with you is still in good condition.

There are some ~~draw~~ drawings of the stoker that I am much in need of at once; and I find that all the N. West. tracings were destroyed by fire some time ago; so these are the only records that are left.

L.

And what do you think about them coming safely thru by mail?

I do not want to take any chances with the Culaw mail; unless you feel very sure that things are good enough condition to warrant it. But if some one is coming across that you could depend on to look after them and mail them on this side after you have wrapped them up securely please send them that way; but otherwise not until you hear from me again. Only please let me know ^{at once} if everything is in good condition and then perhaps I could wire you if I want them in a hurry, which is very likely to be the case.

In the Joy of A Service.
