WATER SERVICE COMPANY

Zion, Ill.  
October 29, 1934.

Jesse Crosby,  
Bartle, Cuba.

Dear Brother:

Some of the Voliva people have left four copies of his new paper "The Final Warning" at our door; and it has occurred to me that I should send them to you; which I am doing, under separate cover. The ones that I am sending you are Volume 1; Numbers 5, 6, 7, and 8.

You will no doubt have noticed the article in the "Community News" of Sept. 20th telling of how Voliva had killed the "Leaves of Healing" (which he stole from the Doctor and Mr. Lewis) and had substituted this "Final Warning". Nevertheless there are some good things in it--the devil always has to wear his good clothes sometimes. Voliva never prints any of his low grade stuff--the things that most readily reveal his real inner beastly nature. But he did blunder along with the radio, and let a lot of it get out there, to the outside. You will find a good deal of this other side printed and commented on in the "Community News". The general tone of the C. N.s seems to me to have been very honest toward Voliva--I mean that they have not gone out of their way to merely vilify him unjustly. But this is not true so much toward the old Doctor.

Am enclosing a clipping from the Wauken Sun showing a picture (arranged of course in the Sun office, and not so taken in fact) of Voliva and Caldwell. The black cap that Caldwell is wearing was worn for several years to cover up the great tumor on his head; from which, with other complications he finally died at the close of last year. Voliva also has had much disease in his kidneys; and has had to go on a very stiff diet. He is also accused of worse things along the medical line; but I do not know for sure about that. He has been very weak physically for several years; and seems barely able to get along at all.

Please return the clipping when you write again.

Have had our first killing freeze over the week end. Was 18 above zero this morning. Still have a lot of late fall stuff in the ground; and I hope it will warm up again right away so that I can get it out. It is still and cloudy this morning; and looks like snow.

Will close now, as I had only that to write a few words explaining the papers.

Love and prayers,

Clarence W. Crosby.
