Mr. Jesse Crosby,
Bartle Oriental Province, Cuba.

Dear Jesse:

I received your Christmas greeting and will answer it by letter. Anna's health is very poor, really in serious condition. The rest of the folks, sofar as I know, are as well as usual.

We are having a snug winter here, twenty below zero and lots of snow and ice; not being use to this it will probably give you a chill to hear about it.

I received a letter from Clarence and he has been in poor health too, but you have probably heard from him.

I would be pleased to hear from you and have you give us a history of conditions in Cuba. When Anna is in better health and I have more time, I will write you a long letter telling you more fully what we are doing.

Sincerely yours,

Anson Crosby
